

I whole-heartedly support Sinclairs right to air what they feel is news and not be censored by individuals who feel this may be detrimental to their candidate and want to kick and scream when something doesnt got their way. I feel I have the right to watch what Sinclair chooses to air and being a intelligent individual I feel I can make up my own mind about what they showed and can formulate my own opinions for myself without having someone tell me what I saw or heard. I dont feel this is slanted anymore than Dan Rathers vain attempt to smear the president with bogus documents that are shown to be fakes. Thank you and count me as one who feel that freedom of the press and the media is not to be censored. Harold Hammer
